GLADIOLUS

1955 - 6

AMERICA'S BEST BUY

American grown gladiolus for American gardeners. All bulbs are guaranteed to bloom. Bulblets are guaranteed to germinate. No mess or fuss with my strain, regardless of what variety you buy. You don't have to dip or spray. Just plant your bulbs, cultivate, and enjoy the very finest bloom on very strong spikes that need no staking.

This being more or less a condensed folder, I will gladly give you additional information to anyone asking for it.

TERMS: Net cash before shipment. 25% will hold early orders until April 1st. If you require a large quantity of bulbs or bulblets, write for wholesale price and quotations on large orders.

Postage paid on orders of \$3.00 or more.

Kindly Order Early

JAMES F. McGUIRE

HYBRIDIST - GROWER

NASSAU, NEW YORK

This is my 31st year growing glads and my 18th year in hybridizing. Have planted 20 years on the same soil and never had to dip or spray my glads. All my stock is field grown, well cultivated, and left to nature for water.

In your order you will receive fine healthy bulbs, plus overcount, plus an unbelievable amount of extras for your own trial garden.

I am located on both sides of the State Road, U.S. #20 — 18 miles east of Albany and thousands of persons stop to look over my gladiolus, giving me great praise for my color and growth.

Gladiolus will grow and bloom in any soil, but they do like a good sunny location and plenty of water weekly. When planting use hoe and make furrow 5" deep. Plant bulbs 6" to 8" apart, base down cover slightly and hill as plant grows; your last hilling should leave your bulb covered at least 6" to 8". This will support your spike from wind and rain.

Planting bulblets in the Fall — Make a furrow 2" deep, dropping bulblets $\frac{1}{2}$ to 1 inch apart then cover with soil. After your first heavy frost and ground is frozen mulch with leaves or hay. Then cover with twigs to keep mulch from blowing away. In early Spring remove your mulch. If you plant this way 90% of your bulblets will give large blooms.

Planting bulblets in the Spring — I start soaking bulblets in March to plant out in April; four to five weeks in water will start them off as soon as they are covered in the ground. I make my furrows about 1" to $1\frac{1}{2}$ " deep and sprinkle the bulblets in the furrow, many are next to each other so they help one another to break through the ground.

SIZE OF THE BULBS YOU ORDER

L — Means Large Bulb, $1\frac{1}{4}$ " up in diameter.

M — Means Medium Bulb, 1" up in diameter.

S — Means Small Bulb, $\frac{1}{2}$ " up in diameter.

Blts. — Means Bulblets or Cormlets from which larger bulbs are grown.

There is a great saying about the early bird. That goes also in early orders.

Thanks a million to all my satisfied customers. As I have received only letters of praise . . . and not one complaint.

WHY

Why pay more when you can't buy better. When you buy wisely you get more for your money and at the same time receive fine healthy bulbs that are guaranteed to bloom. A trial order will convince you.

1955 INTRODUCTIONS

You will be proud to be the owners of the three most outstanding glads which I am introducing this year.

"THE QUEEN", "MARY CROWLEY", and "PRAISE" will be all blue ribbon winners. They are disease resistant and have excellent habits.

"THE QUEEN", a light rose, is a sport of Burma with the the same beautiful ruffle and a much finer texture than its parent.

"MARY CROWLEY" is a rich self color in the medium rose class—an outstanding formal.

"PRAISE" is an exceptional strong grower with a flower head of 24" and in color is a rich scarlet without any markings.

THE QUEEN. (Sport of Burma). Lt. Rose. Class 460. Flower 5", 9 open, 9 in color, 18-20 buds, F.H. 28", H. 52". Blooms 75-80 days.

L-\$2.50; M-\$2.25; S-\$2.00; Blts. 6-\$1.00

MARY CROWLEY. (Mrs. T. E. Langford X Troubador). Color, medium rose. Class 462. Flower 4½", 9 open, 7 in color, 20-22 buds, F.H. 28", H. 54". Blooms 75-80 days.

L-\$2.50; M-\$2.25; S-\$2.00; Blts. 6-\$1.00

PRAISE. (Leading Lady X Maurie Trevan). Color, Scarlet. Class 452. Flower 4½", 6 open, 8 in color, 14 buds, F.H. 24", H. 66". Blooms 85-90 days.

L-\$2.50; M-\$2.25; S-\$2.00; Blts. 6-\$1.00

1954 INTRODUCTIONS

BABE. (Aida x Debonair) Class 262. Deep rose with a deep rose edging on a cream and yellow face that goes through the petals. Very unusual. If you like the small glads, you will love this little beauty. 2½" flower, 5 open, 7 in color, 15 buds, F.H. 15", H. 44", blooms in 80-85 days.

L-\$1.00; M-75c; S-50c; Blts. 10-\$1.00

OVERALL. (Aida x Debonair) Class 362. Medium rose lacinated. Two lower petals are light rose with a light feather. 3½" flower, 7 open, 7 in color, 22 buds, F.H. 29", H. 58", blooms in 80-85 days.

L-\$1.00; M-75c; S-50c; Blts. 10-\$1.00

MARILYN SMITH. (Greto Garbo x Lady Jane) Class 441. Light pink with light rose blotch on two lower petals, deep in throat. 4½" flower, 8 open, 6 in color, 18 buds, F.H. 27", H. 56", blooms in 70-75 days.

L-\$1.00; M-75c; S-50c; Blts. 10-\$1.00

1953 INTRODUCTIONS

SENRY. (Mrs. T. E. Langford x Beacon). An outstanding buff with a cream lip blending to a flesh tint background giving this glad a beautiful effect. Class 416. Informal 5" flower, 5 open, 5 in color, 15 buds. F. H. 28" H. in F. 56". Blooms in 110 days.

L-75c; M-50c; S-35c; Blts. 12-\$1.00

ONLIWON. (St. Rose x Pride of Pittsfield). A deep salmon with a slight ruffle. A bright open face. The two lower petals are yellow with deep rose edging and gives this glad a new striking appearance. Class 432. Informal 5" flower, 5 open, 5 in color, 16 buds. F. H. 25", H. in F. 58". Blooms in 80-85 days.

L-\$1.00; M-75c; S-50c; Blts. 10-\$1.00

L-25c; M-20c; S-15c; Blts. 25-50c

KATE. Lt. Rose. Class 460. A real color that fits its class. A glad that's different and should be growing in every American garden. Very good habits and very striking. H. 48", F. H. 28", Flower 4½", open 8, color 5, buds 16-18. Blooms 70-75 days.

L-25c; M-20c; S-15c; Blts. 18-50c

OVERLOOK. Lavender Rose. Class 566. If it's a real beauty you are looking for and a glad that can stand up and take it, by all means you must order Overlook. H. 54", F.H. 28", 6" flower, 6-open, 5 color, 16-18 buds. 85-90 days.

L-\$1.00; M-75c; S-50c; Blts. 12-\$1.00

OPAL. Black Red. Class 354. With white feather on lower petal. A Vagabond Prince X Rewi Fallu cross. Has everything you would like a glad to have. No fault to find and disease resistant. If you like a dark glad don't hesitate to order this one. Blooms 75-80 days.

L-30c; M-25c; S-20c; Blts. 12-25c

PRIDE OF PITTSFIELD. Deep salmon. Class 532. With a yellow blotch. What a whip and it will really stand up in heat, wind, rain. I have as yet to see a stronger glad. And my biggest demand in the commercial market. I have been increasing my stock for the past 3 years and I have not met the demand. If it's a money maker you want, don't fail to order this glad. H. 66", F.H. 34", 5½" flower, 6-open, 6 color, 16 buds, 80-85 days.

L-50c; M-40c; S-25c; Blts. 12-50c

PRECESS. Dk. Red. Class 352. With white feather on lower petals. A very hardy glad regardless of where you plant it. Disease resistant. If you care for a deep red color this is another must. Blooms 70-75 days.

L-25c; M-15c; S-10c; Blts. 12-25c

ST. ROSE. Lt. Rose. Class 460. Ruffled with deep rose feather. This is my favorite glad and why shouldn't it be? I named it after my mother. I recommend it highly. H. 48", F.H. 30", 4½" flower, 8-open, 4 color, 16-18 buds. Blooms 75-80 days.

L-75c; M-50c; S-35c; Blts. 6-50c

ST. FRANCIS. Lt. salmon. Class 330. Orange and yellow blotch, a very strong grower and very good commercial. H. 60", F.H. 30", 4" flower 11-open, 3 color, 15-17 buds. Blooms 75-80 days.

L-50c; M-35c; S-25c; Blts. 12-50c

TILLIE. Lavender. Class 366. With cream lip. A good commercial and a money maker. Very good habits. This is a glad that you will like. H. 50", 5 color, F.H. 29", flower 3½", 5-open, 16-18 bud, 70-75 days to bloom.

L-25c; M-20c; S-15c; Blts. 18-50c

WINSOR. Deep yellow. Class 412. This is a glad that has color and class and can stand out in the field and take it. This is a very rich looking glad in looks and color. It only carries 15-17 buds, but it's not unusual to see all in bloom. H. 46", F.H. 24", 5" flower, 9-open, 5 color, 15-17 buds. Blooms 70-75 days.

L-50c; M-35c; S-25c; Blts. 12-50c

YELLOW STONE. Deep yellow. Class 412. With a gold look. This is the most outstanding yellow commercial to date. A very attractive glad of a rich gold color with a slight tint of deep rose deep in throat. Unnoticable. Put this down as a real money maker. Habits very good. H. 52", F.H. 30", Flower 4½", 7-open, 6 color, 18 buds. Blooms 70-75 days.

L-50c; M-35c; S-25c; Blts. 12-50c

If you are not interested in named varieties but do like all shades and colors; I have made up that mixture. 100 large bulbs in all for \$6.00.
